

# FULL WIDTH PLASTIC HALF STEPS

DEVELOPED FOR THOSE WHO FIND IT DIFFICULT GETTING IN AND OUT OF THEIR HOMES.

The step halves the height between the door and the ground, allowing the user to be steady on the large surface before making the next step down. Our plastic half steps are built for the outdoors, being rust resistant and long-lasting even in cold or heat. The 30 inch (75cm) width gives plenty of room for both feet to be comfortable and ensure balance.

## BIGFOOT HALF STEP

The Bigfoot Half Step is the ultimate outdoor step.

Support handles are available, offering a great solution to avoid permanently fixing a grab rail by the door. One or two handles can be attached by simply clipping in to the step, and they are easily removed for transport.

The new step surface gives an impressive 35 stone (220kg) maximum user weight, with fixed grips to give our best possible slip resistance on the steps surface.

The height can be adjusted from 3.5 to 5 inches (9-12.5cm) to make the perfect level to step out from your door.

**Comes with a floor fixing kit for use with support handles.**
