

PRIMA TOILET AID RANGE

FLATPACK VERSIONS
ALSO AVAILABLE

TOILET AID WITH ADJUSTABLE LEGS AND
NEW SLEEKER, CONTOURED SEATS.

KEY FEATURES

- Choice of 2 frames and 3 seats to meet your individual needs
- Designed to fit every type of toilet bowl shape, including square toilets and wash and dry bidets
- Prima Classic / Prima Horseshoe can be converted easily into commodes

THE CLASSIC FRAME HAS 2 SEATS AVAILABLE

The Classic, which is a flatter seat than most toilet aids. It is contoured for comfort and has unique clips which prevents lateral movement on the frame. **The Superior** boasts all of the above features and benefits, but with a deeper skirt which sits inside the toilet bowl for added hygiene.

The Horseshoe Toilet Aid has been designed to offer improved comfort for male users. A full open front enables gentlemen to tuck in and avoid spillages

Both frames are height adjustable, the seats can be autoclaved and do not retain water. There is also an option to make both the Classic and Horseshoe Toilet Aids into commodes by simply attaching a bracket to the frame and adding our Burton Pan which has a capacity of 7 litres.
